

As the health of participants is a top priority for us in Cubex, we are currently taking increased hygienic measures to minimize the risk of spreading the coronavirus SARS-CoV-2.

Current hygienic measures include:

- 1** Intensive above-standard cleaning after every event (incl. cleaning surfaces with disinfectant)
- 2** Regular total disinfection of all premises
- 3** Regular disinfection of air-conditioning units
- 4** Disinfectants available for participants
- 5** Organisers can borrow contactless thermometers for free
- 6** Option of arranging an external employee to monitor compliance with spacing or other current regulations
- 7** If necessary, individuals can be provided with disposable face masks
- 8** Information system with safety instructions
- 9** An announcement with safety and hygiene instructions available for organisers (possible to supply own loop)
- 10** Daily temperature checks of all Cubex employees
- 11** Event hybridization possible, if government regulations limit the number of participants attending the event
- 12**

**Sharing current regulations and additional recommendations with our clients**

**13**

**Hygienic measures are also in place in the lobby and the whole Trimaran building:**

- Increased disinfections of exposed areas such as elevator buttons, handles in elevators, door handles, washbasins, faucets, toilet bowls, including flushing buttons, access system exit buttons, common areas such as receptions, changing rooms, showers, bicycle rooms, etc.;
- Increased disinfection of air-conditioning units (Filtered air is not mixed with exhaust air – no recuperation units are in operation.);
- All suppliers have now been informed of hygiene regulations best practice
- Disinfectant dispensers have been installed at the reception desk;
- Cleaning staff is trained on safety protocols and proper cleaning methods.

**14**

**Our catering partner, In Catering, is paying increased attention to hygienic processes and is taking the following measures:**

- Regular temperature checks of all employees and external staff on arrival at the event;
- Above-standard care for cleaning and disinfecting transport boxes, cars, inventory and furniture;
- All staff members will wear masks and protective rubber gloves at all time.

**We are monitoring the current situation, and will adapt the hygiene measures in Cubex accordingly. Event organizers will agree the specific measures before their events with the coordinator of the event.**

**\* Increased hygienic measures are based on regulations of WHO (World Health Organization) and recommendations of AIPC (International Association of Convention Centres) and UFI (Global Association of the Exhibition Industry).**
